Summary

Front-End Developer skilled in React.js, JavaScript, and WordPress. I specialize in building highly performant, responsive websites from scratch, managing the entire process from initial design to final hosting. Eager to join a dynamic team and contribute to fast, accessible, and user-centric web applications.

Experience

Web Developer

Alevizou Dental Clinic, Remote

Aug 2024 - Current

- **Front End Development:** Designed, developed, and deployed a fully responsive, cross browser compatible custom website from scratch. Utilized semantic HTML5, modern CSS3, and Vanilla JavaScript for efficient DOM manipulation to ensure a seamless user experience.
- **Performance & SEO:** Implemented technical SEO and digital marketing strategies to significantly boost organic discoverability, achieving outstanding Google Lighthouse metrics, 100 SEO, 100 Best Practices and 95 Performance, that ensure very fast load times and high search engine visibility.
- **Infrastructure & Security:** Managed the complete hosting environment via cPanel, taking full ownership of database setup, DNS configuration, and SSL security installation.
- **UI/UX Design & Integrations:** Translated design concepts into functional web elements, utilizing Adobe Photoshop and Canva to create optimized web graphics, banners, and a consistent UI across all digital touchpoints. Integrated a Google Calendar scheduling system to streamline patient appointments.
- **Digital Strategy & Optimization:** Executed ongoing image and performance optimization to maintain fast load times. Managed corporate social media channels and visual content creation, implementing digital marketing strategies to drive user engagement and increase organic traffic to the clinic website.

Freelance Front-End Developer

Back to Black (Terpo Tattoo), Remote

May 2023 - Aug 2024

- **React.js Development:** Designed and developed a high performance personal portfolio website. Utilized functional components and responsive CSS to showcase projects with a modern, interactive UI.
- **WordPress Booking System:** Deployed and customized a WordPress based booking platform. Configured plugins and backend settings to manage reservations, calendars, and client notifications efficiently.
- **Infrastructure & Platform Management:** Managed the end to end technical setup for both platforms. Handled domain registration, SSL certification, and hosting server management via VPS Hosting.
- **Digital Marketing & Maintenance:** Orchestrated social media campaigns to drive traffic to the booking system, creating visual assets with Photoshop and Canva to optimize user engagement paths. Provided ongoing maintenance, updates, and technical troubleshooting for both the React codebase and the WordPress CMS.
